

SECURITY POLICY

Nuvant S.A.S, a manufacturer of coated textiles, in coherence with its mission and under a preventive approach based on a risk management system, carries out actions to maintain integrity in its operations within the national and international supply chain. Committed to this, it implements control and security strategies aimed at complying with legal and regulatory requirements and preventing illicit activities. This is done in order to foster a culture of security and continuous improvement.

In this regard, Nuvant, from its Senior Management, focuses its actions on the following strategies:

1. Implementing necessary controls to maintain security within its facilities.
2. Applying controls to preserve the integrity of its cargo units.
3. Monitoring import and export operations.
4. Engaging business associates and employees through proper selection, evaluation, and risk analysis.
5. Establishing and maintaining necessary controls to prevent illicit activities such as money laundering, drug trafficking, terrorism financing, corruption, and bribery, among others; through a supply chain risk management system.
6. Promote Information Security and Information Technology, in order to ensure confidentiality and integrity.
